**Past President Report**  
**Provincial Fall Meeting**  
Star of the North – St. Albert  
September 6 – 9, 2012

At our Provincial convention in Whitecourt I had asked the five diocesan past presidents for a short item on a significant project from their diocese which took place this past year for the archives display board. It was disappointing that each Diocese did not submit a project article. However, I will once again make a request of each past president to pick one project or event that took place in 2012 and archive the details by December 1.

Dates in October are being considered for the Archives subcommittee to meet and work on our many items. A request has been made with Madam President Sheila for time to hold a short workshop on archiving at our Mid-Winter meeting. It is a valuable skill that most of you will likely be responsible for down the line.

Attending National Convention 2012 was most enjoyable with it being here in Edmonton. As chair of the protocol committee I did learn things, which is what you want to do with every new initiative. After convention I submitted my newsletter article and look forward to writing my fall communique.

As I continued to work on the National Ad Hoc Committee of Leadership Development in developing the Catch the Fire leadership training, it was great to see the fruits of our labour embraced when the program was kicked off at National Convention.

This concludes my report.

*Fran L.*
